FEDERAL ENERGY
REGULATORY COMMISSION

CP06-54-000

Dear Magalie R. Salas,

I have recently been made aware of Broadwater and am very much apposed to this proposal. As a resident of Long Island and a recreational boater of the Long Island Sound I am not comfortable having this costly water hazard in my back yard. Long Island taxes are crippling enough with out asking us to flip the bill for something we don't want or need. I would be very interested in your position on having this potential bomb floating in our Long Island Sound. I can be reached at the address below.

Sincerely,

Tina Riesenburger
